FACILMENTE IGENIZZABILI

Lo sporco aderisce meno alle superfici in metallo dei prodotti Delka, che risultano più facili da pulire e garantiscono una maggior igienizzazione.

EASILY SANITIZABLE

Steel and iron are easy to clean and hygienic as they do not retain dirt, are resistant to the acidity of most sanitizing products, ensuring a safe and thoroughly sanitized product.

RESISTENTI AL FUOCO

La proprietà ignifuga del metallo ne fa uno dei materiali più sicuri per costruire e per realizzare prodotti con maggior esistenza al fuoco.

FIRE-RESISTANT

Thanks to the fire-resistant properties of the metal they are composed of, Delka products are safer for building and for creating products with greater resistance to fire.

VERNICI NO SOLVENT

Tutte le parti dei prodotti in metallo Delka sono verniciate con tecniche solvent free, con vernici a polvere certificate.

SOLVENT-FREE PAINTS
