Sistemi per strutture tavoli in metallo

Delka Systems è composto da due sistemi integrati di strutture in metallo per gambe e accessori EASY-LINK e EASY-JOINT, caratterizzati da una flessibilità d'uso in grado di interpretare ogni tipo di esigenza e trasformarla in un ufficio pratico da vivere, semplice da progettare e realizzare. Infinite possibilità di combinazione degli elementi consentono la creazione di uffici modulari.

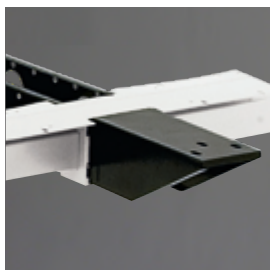

Metal table structure systems

Delka Systems consists of two integrated systems of metal structures for legs and accessories: EASY-LINK SYSTEM e EASY-JOINT SYSTEM. These systems are characterized by a flexibility of use able to interpret every kind of needs and transform it into a practical office to live, simple to design and realize.. The infinite combination possibilities of elements allow the creation of modular offices.

EASY-LINK SYSTEM

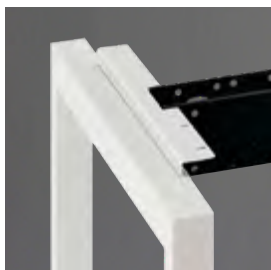

Sistema strutture per tavoli in metallo componibile a incastro con trave centrale.

A structural system composed of a single central metal beam that can be connected to various leg models, thanks to its pressure-fit interlocking mechanism.

Con il nostro sistema è possibile la continuità anche con gambe tubolari.

Our system allow continuity also with tubular legs.

I sistemi di aggancio che limitano il numero della gambe sono pensati per ridurre l'ingombro anche del magazzino.

Le composizioni più articolate e complesse sono supportate senza problema dai versatili elementi del sistema.

The plug-in systems reduce the number of legs and are designed to occupy a small space when stored. The richest and most complex compositions are easily supported by the versatile elements of the system.

La linea è stata ideata con un modulo che consente di creare lunghezze di scrivania personalizzate.

Tre misure per la trave telescopica permettono di regolare la struttura portante al millimetro.

The line is based on a module with which the desk length can be easily customised.

Three sizes for the telescopic beam allow the perfect adjustment of the bearing structure.

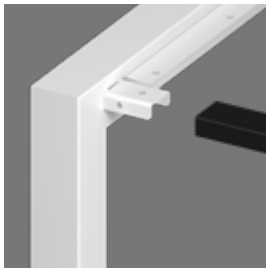

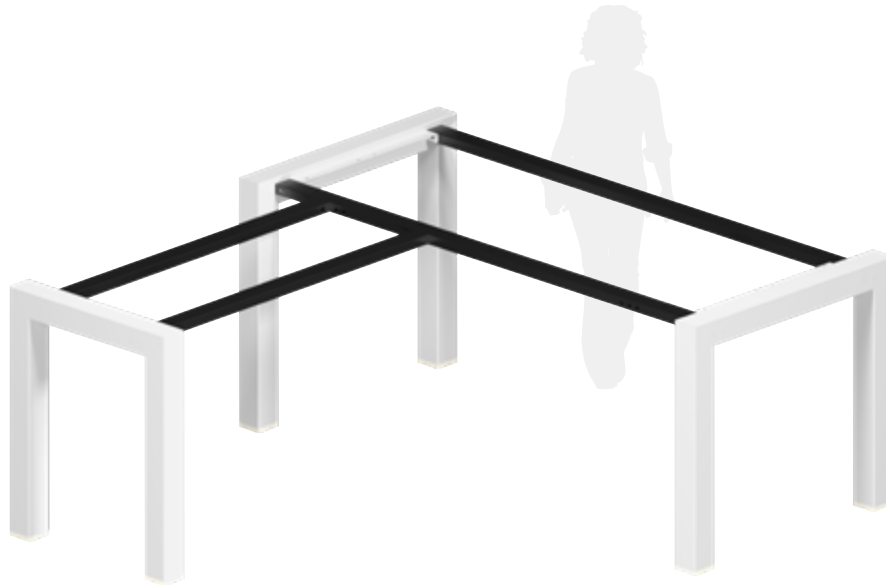

Gli ampi canali passacavi permettono di informatizzare l'ufficio con eleganza, facendo scomparire gli antiestetici grovigli di cavi e connettori. Inoltre robusti e sicuri, gli agganci permettono di realizzare penisole sospese senza aggiunta di ulteriori gambe.

The wide raceways allow equipping the office with computers while keeping it elegant and concealing bundles of cables and connectors. Robust and safe, the plug-in systems have been conceived for the creation of hanging peninsulas without the needs for additional legs.

EASY-JOINT SYSTEM

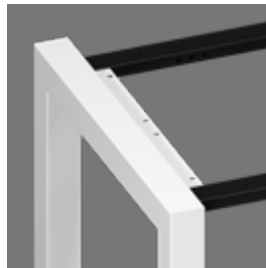

Sistema strutture per tavoli in metallo componibile a vite con doppia trave laterale.

A structural system comprised of two metal tubular beams that can be connected to various leg models, thanks to their easy screw-in interlocking mechanism.

EASY-JOINT SYSTEM permette di collegare le gambe alle travi in modo semplice e intuitivo.

The EASY-JOINT SYSTEM allows for a simple and intuitive connection between the legs and beams.

Le composizioni più articolate e complesse sono supportate senza problema dai versatili elementi del sistema.

The most intricate and complex compositions are easily supported by the system's versatile elements.

La resistenza del materiale e la grande attenzione al dettaglio, rendono queste strutture adatte a qualunque ambiente, da quello lavorativo, al più elegante.

The material's resistance and meticulous attention to detail make these structures suitable for any environment, from professional settings to the most elegant ones.

Questa tipologia di trave permette di avere la gamba del tavolo e il piano di lavoro sullo stesso livello.

This type of beam enables the table leg and the working surface to be at the same level.

Strutture Tavoli

Desk Structures

Semplicità modulare

Una postazione che risponde con performante semplicità alle esigenze di spazi lavorativi differenti. Linee pulite create da elementi modulari che si compongono e danno vita a soluzioni strutturate dove screen divisorii, cassettiere si integrano con i tavoli e danno vita a spazi funzionali e armoniosi.

Modular Simplicity

A workstation that responds with performing simplicity to the needs of different working spaces. Clean lines, created by modular elements that compose and give life to structured solutions where screen dividers, drawers, integrate with tables, and give life to functional and harmonious spaces.

KUBO

Strutture Tavoli

Desk Structures

**Design
da vivere
ogni giorno**

**Design
to live
through every day**

Sono i dettagli che
fanno la differenza.

KUBO si presenta
con linee semplici,
ideali per essere
vissute nella quoti-
dianità,
ma è sufficiente un
solo dettaglio e il
tavolo diventa il
vero strumento di
lavoro.

Details that make
the difference.

KUBO introduces
itself with simple
lines, ideal to be
lived out in the life of
every day, but only
one detail
is enough to reveal
a real working tool's
nature of this work-
station.

NOVA

Strutture Tavoli
Desk Structures

Flessibilità tutta d'un pezzo

A prima vista NOVA mostra tutta la sua solidità data da una struttura in metallo, che può essere arricchita da finiture di pregio, ma la sua elegante presenza nasconde una grande praticità e mette ordine grazie al passaggio cavi interno.

Solid flexibility

At first glance, NOVA shows all its solidity, given by the metal structure that can be enriched by fine finishes; but its elegant presence conceals great practicality: can be adjusted to the desired height and creates order, thanks to the internal cable passage.

RING

Strutture Tavoli
Desk Structures

Quando la leggerezza scende in campo

A fine giornata tutti siamo soddisfatti quando abbiamo fatto quadrare il cerchio, quando lo facciamo con stile abbiamo raggiunto la perfezione. RING raggiunge la perfezione delle forme con il suo design leggero ma squadrato, unisce stabilità e armonia tracciando con le sue gambe un quadrato perfetto.

When lightness comes into play

At the end of the day we are all satisfied when everything fits, and when we do it with style, we have achieved perfection. RING achieves the perfection of shapes, and with its lightweight but squared design combines stability and harmony; And everything fits.

ECO-SCREEN: scegli il tuo colore

I moderni uffici open space richiedono spesso soluzioni acustiche adeguate. Gli armadi Slide&Go sono dotati di pannelli acustici in feltro fonoassorbente (ricavato da plastica riciclata) nelle ante scorrevoli. Queste porte riducono i rumori ambientali nel vostro ufficio. Personalizza il tuo Slide&go scegliendo il colore per i pannelli acustici eco-screen

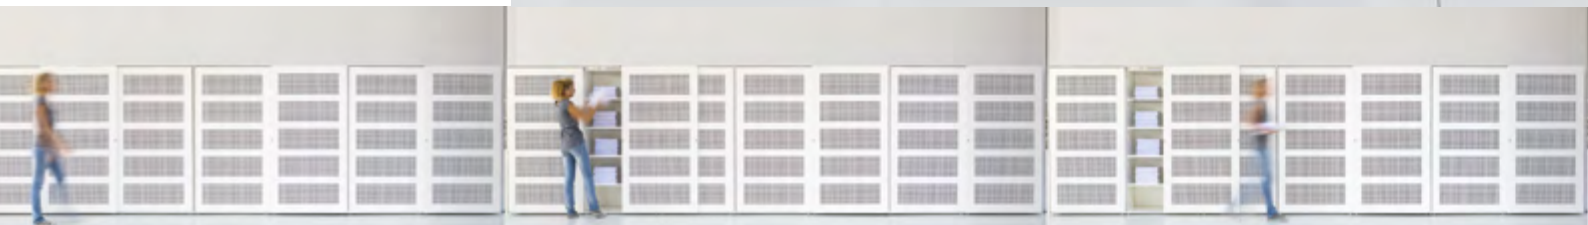

ECO-SCREEN: choose your color

Modern open space offices often require adequate acoustic solutions. Slide&Go doors are equipped with acoustic panels made of sound-absorbing felt (made from recycled plastic) eco-screens. These doors reduce ambient noise in your office. Available in different colours, you can choose the color you prefer and customize your cabinet.

Tutto lo spazio che ti serve

Con le sue due dimensioni modulari e le due diverse profondità, la nostra linea Slide&Go sarà sempre abbastanza grande. Disponibile in versione due o tre porte, per un armadio che arriva ad essere lungo fino a più di tre metri! Ogni ripiano è regolabile all'altezza che preferisci, in modo che tu non debba più impilare o spiegazzare le tue cose per poterle riporre. Scegli la combinazione che preferisci e inizia ad apprezzare il silenzio, grazie alle nostre porte fonoassorbenti!

All the space you need

With its two modular dimensions and two different depths, our Slide&Go line will always be enough. You can have in two or three doors version, this cabinet can be more than three meters long! Every shelf is adjustable at the ideal height so you never have to crumple or pile your things to make them fit inside the cabinet. Just choose the combination you prefer and start appreciating the silence that comes from our acoustic doors!

GREEN PHILOSOPHY

Alla base della "Delka Green philosophy", c'è un pensiero ecologico che oltre ad accrescere la funzionalità dei prodotti contribuisce alla diminuzione dell'inquinamento e a preservare la salute dell'utilizzatore, per creare un ambiente sano dove lavorare.

At the core of the "Delka Green philosophy" is an ecological mindset that not only enhances the functionality of products but also contributes to reducing pollution.

PRODOTTI RICICLABILI

I prodotti sono realizzati in metallo, un materiale completamente riciclabile che garantisce una durata maggiore nel tempo rispetto a molte altre materie prime.

RECYCLABLE PRODUCTS

Fully embracing the philosophy of the circular economy, our products are entirely metallic.

Delka

Crea un ambiente sano dove lavorare
Create a healthy work environment

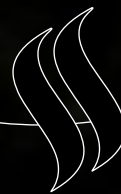

FACILMENTE IGENIZZABILI

Lo sporco aderisce meno alle superfici in metallo dei prodotti Delka, che risultano più facili da pulire e garantiscono una maggior igienizzazione.

EASILY SANITIZABLE

Steel and iron are easy to clean and hygienic as they do not retain dirt, are resistant to the acidity of most sanitizing products, ensuring a safe and thoroughly sanitized product.

RESISTENTI AL FUOCO

La proprietà ignifuga del metallo ne fa uno dei materiali più sicuri per costruire e per realizzare prodotti con maggior esistenza al fuoco.

FIRE-RESISTANT

Thanks to the fire-resistant properties of the metal they are composed of, Delka products are safer for building and for creating products with greater resistance to fire.

VERNICI NO SOLVENT

Tutte le parti dei prodotti in metallo Delka sono verniciate con tecniche solvent free, con vernici a polvere certificate.

SOLVENT-FREE PAINTS

All metal parts of Delka products are painted using solvent-free techniques, with certified powder coatings.

DELKA 100% PRODUZIONE ITALIANA

I prodotti Delka sono il frutto di una filiera produttiva interamente italiana gestita secondo il sistema Lean Production, grazie al quale Delka garantisce la gestione di un servizio al cliente flessibile e veloce. La produzione Delka interamente gestita all'interno dell'azienda e le soluzioni tecniche innovative, sono le linee guida di un percorso di miglioramento continuo verso una direzione condivisa e sostenibile!

DELKA 100% ITALIAN PRODUCTION

Delka products are the result of an entirely Italian production chain managed according to the Lean Production system. Delka ensures the management of flexible and fast customer service. Technical-production and commercial aspects coexist at Delka, with the goal of customer satisfaction through the right balance between industrialization and component design. Delka's production is entirely managed in-house, and innovative technical solutions guide a continuous improvement journey towards a shared and sustainable direction!

Delka, sempre alla ricerca del miglioramento dei propri prodotti, si riserva la facoltà di apportare modifiche costruttive e funzionali in qualsiasi momento senza alcun preavviso.
